Join us Sunday, October 11, 2015

at 1:30 pm, 1st Jefferson Universalist Church.

For: "A Message from Thoth the Atlantean".

Marvin Sebourn will take a look at Sacred Geometry combining Western Numerology, Ancient Kabbalah and the Wisdom of the Emerald Tablets.

Marvin started meditating in 1976 with training in Transcendental Meditation, and in 2003 was introduced to Western Numerology. In the year 2004 Marvin was introduced to the 72 Names of God which is a

tool of the ancient Jewish Kabbalah. Very early into the study of the Names of God, Marvin was prompted to apply his understanding of Western Numerology to the 72 Names of God matrix. The magic started when Marvin noticed that the base numbers started to create form and structure as they aligned themselves in a diagonal line throughout the chart. With further analysis Marvin started finding underlying connections that

has taken him to higher levels of consciousness. In 2012 Marvin was introduced to the Emerald Tablets of Thoth the Atlantean giving him even deeper insight into the ascension process and this was directly connected to and affected his understanding of both Numerology and Kabbalah. Through much study and struggle Marvin feels competent to share the wisdom of these ancient tools with anyone that has a strong desire to transform their lives and our planet. These are tools that will assist in the difficult days that are being discussed in many circles through the contemporary media. It appears we are upon a collective dark night of the soul and these tools will keep us out of fear as we transcend this event.

Vibrational Astrology is a very clear and thorough system of astrological interpretation that is based on harmonic astrology. This is not a deep dive into technical details, endless numbers or overwhelming complexity. This workshop covers very simple and clear techniques you can incorporate into a professional practice or for your own personal interest. You will leave this workshop with practical tools you can use. The rules are clear and unambiguous. There is little guessing. If you are intuitive or psychic, this will make your interpretations even better, but anyone who studies this system can master it. Learn more at link above.

“The moon is a developing power and the final aspect indicates outcome of any venture under consideration. In selecting the day and hour for taking an action we base our decision to act or not on what she advises according to her final aspect “when all is said and done” If she is void of course the matter is also inactive with no harm done.”

– In the beginning astrology, Ivy G Jacobson

October Birthday Returns

Happy Birthday to Libras and Scorpios!

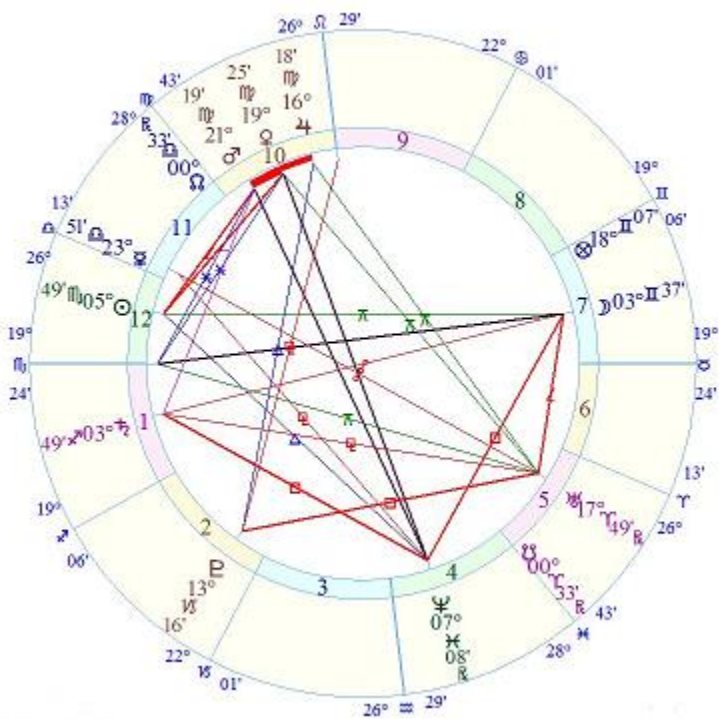

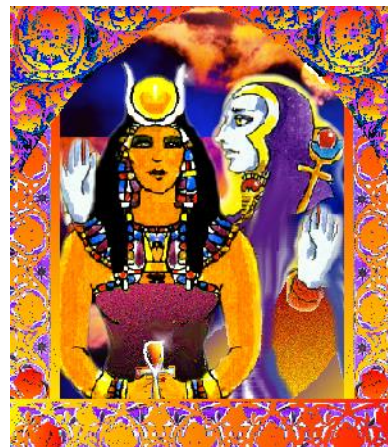

Our Solar return chart this month belongs to **Tawana Couch**.

This year has the lucky Jupiter/Venus conjunction elevated in the 10th house,

showing the necessity to deal with the public,

professional life. Jupiter, ruler of the natal 8th and 12th, connects with issues of pets and health, and the ruler of the Solar return 10th is the Sun, located in the 12th house. Your generosity and leadership is required, and you will need compassion and sympathy to deal with these issues.

Most of the planets are in mutable signs this year, so you will need to remain flexible. Saturn in the first ruler of your natal 10th can be a parent or someone older that you are helping. Saturn opposition Moon is angular in the solar return, and conjuncts the 2nd/8th house axis in the natal chart.
